

AFTERLIGHT SERVICE DELIVERY

# One platform. Three ways to operate.

Choose the service model that matches your team, portfolio, and pace - while keeping every inspection in one connected workflow.

BUILT TO EVOLVE

01

## Full-stack SaaS

YOUR TEAM. ONE SMARTER SYSTEM.

Run inspections with your own people, powered by a single operating system for the field and office.

- Centralize scheduling, checklists, photos, and reporting
- Standardize execution across every property
- Keep staffing and fulfillment fully in-house
- Gain portfolio visibility without changing your team model

### BEST FOR

Established teams that want maximum operational control.

02

## Managed service

COVERAGE WITHOUT THE STAFFING BURDEN.

Let Afterlight lead inspection fulfillment while your team stays focused on properties, tenants, and performance.

- Tap Afterlight staff and Resource Network capacity
- Reduce recruiting, scheduling, and coverage pressure
- Keep reports, service billing, and oversight connected
- Scale delivery without building a larger field team

### BEST FOR

Organizations that want an Afterlight-led inspection operation.

03

## Hybrid

YOUR TEAM PLUS FLEXIBLE COVERAGE.

Keep your team in the lead, then add Afterlight coverage wherever it creates the most value.

- Blend internal fulfillment with Afterlight coverage
- Adapt by property, region, season, or staffing level
- Cover overflow, vacancies, and hard-to-reach locations
- Keep every assignment and report in one shared system

### BEST FOR

Portfolios with changing needs across markets and properties.

Find the right fit for today. Build a clear path for tomorrow.
